Christine: I'll be traveling home from BOISE tomorrow, going directly into a priorities meeting in the afternoon, so I don't know how much bandwidth I'll have to work on it before it needs to go to NOAA. Can you help drag this across the finish line?

I made a few changes. Ex. 5 - Deliberative

I struggled with a sentence near the bottom – wanting to say that the state did address some additional elements since the proposed disapproval, but couldn't figure out how to say it...

Also, could we add some more specifics about how/why the forest practices' runoff damages fish habitat? Culverts blown out, legacy roads that result in silty runoff that chokes the baby fish?

After you give comments on this, we'll send it to NOAA tomorrow. We'll see how they react. Quite different from the original.

Thanks!

Marianne
